

IMPORTANT NOTE

重要提示

- This product is made from EPO foam, which is lightweight and durable. However, EPO foam is susceptible to bubbling when exposed to high temperatures, especially in the cockpit area and areas with dark paint. Additionally, the dark-colored vacuum-formed cockpit cover is also susceptible to deformation under high temperatures. Therefore, it is advised not to leave this product in direct sunlight when not in use to maintain its integrity and appearance.
- 本产品由EPO泡沫材料制成, EPO泡沫材料轻量耐用, 但高温暴晒下容易起泡, 尤其是飞机座舱区域和深色油漆的喷涂区域。且深色吸塑材质的座舱罩在高温下也容易变形。因此非飞行时间请勿将本产品置放于烈阳下。
